

**Erratum: Interplay between External Strain and Oxygen Vacancies
on a Rutile $\text{TiO}_2(110)$ Surface
[Phys. Rev. Lett. **101**, 116102 (2008)]**

In Table I(a) of our original Letter, we mistakenly input the values of σ_{22} as the half of S_{2222} . In this Erratum we present the correct values of σ_{22} , 3.64 and 1.00 eV/(1 × 1), for unrelaxed and relaxed surface, respectively. Correspondingly, the values of $(\sigma_{22} - \sigma_{11})$ should be 4.56 and -1.34 in units of eV/(1 × 1), for unrelaxed and relaxed surface, respectively. However, these mistakes do not influence the other results and the conclusions of the Letter.
